Reduction Statements

Reduction Statement Efforts	Reduction Statement Achievements
We are an electronics recycling facility, these shipments are managed as waste but are being delivered to Receiving facility for materials recovery (battery recycling). The process will recover the lead and acid for direct reuse, as well as recover the plastic assemblies also for reuse in battery manufacturing operations.	<p>Changes in volume are based on what material is sent to our facility. We do not "source" batteries, we remove them from scrap electronics.</p> <p>All shipments for 2017 came from approved facility under EPA File #'s used 17/15932/IMP corresponding Canadian import permits #701170. No shipments generated at EPA File #'s used 17/15930/IMP corresponding Canadian import permits #701169.</p>
